

# RepoConnect

# RepoConnect

**RepoConnect** is Pirum's dedicated fixed income real-time matching and reconciliation service. With over 250,000 Repo trades processed daily, **RepoConnect** allows clients to match all key trade economics and lifecycle events with 100% of your counterparties on both the buy and sell side.

In addition to reducing settlement costs and fines through trade matching and reconciliation, **RepoConnect** also enhances settlement efficiency through Pirum's extensive network of triparty and custodial connectivity.

## Service overview

Pirum automates key operational processes across the Repo lifecycle, giving both buyer and seller the tools to compare and affirm the key economics of transactions on trade date.

- ❖ Manually intensive operations processes can be replaced with a scalable, automated, standardised solution across your entire Repo portfolio
- ❖ **RepoConnect** improves post trade workflows globally with more STP, greater transparency and more stringent controls preventing missed lifecycle events and reducing trade fails
- ❖ Part of Pirum's post-trade eco-system, **RepoConnect** forms part an end-to-end solution comprising trade matching, settlement automation, regulatory compliance and collateral optimisation

## Key Benefits

- ★ Reconcile, identify, and resolve breaks without leaving the platform
- ★ Reduce fail costs and settlement fines via accurate trade matching
- ★ Ensure accuracy of Risk, Positions and desk P&L
- ★ Gain insights into trends and matching efficiency via powerful MIS tools
